**Brand new album featuring music from the world renowned Baka Beyond and the Baka forest people from Cameroon**

**Baka Beyond the original African Celtic crossover band**

Martin Cradick holds a unique relationship with the Baka hunter-gathers, brilliant musicians from the Cameroon rainforest. Since their first release "Spirit Of The Forest" in 1992, Baka Beyond has grown into a dynamic eight piece band with musicians from across Africa and Celtic Europe. Each visit to the forest has also seen the Baka further their own music. On "Rhythm Tree" Baka and Baka Beyond come together with music recorded both in the UK and the Cameroon Rainforest.
